SUMMARY

I am a data analyst with holding a B.com degree. Proficient in Excel, Python and SQL skills and strong Python library like pandas, NumPy, matplotlib. In excel I'm using pivot tables, filters, and various short functions to extract meaningful insights from data. With a solid foundation in business and commerce, I am actively seeking opportunities where I can leverage my analytical skills and contribute to data-driven decision-making processes.

SKILLS

EXCEL | PYTHON | POWER BI | SQL | DATA ANALYSIS | DATA CLEANING | STATISTICAL ANALYSIS | DATA VISUALIZATION | GOOGLE ANALYSIS | PANDAS | NUMPY | LOOKUP | FUNCTION

PROJECT

IMDb Data Analysis in Excel ([View repository](#))

Dec 2023

- Our IMDb dataset project delves into movies and TV shows, revealing trends and insights. By analysing ratings and exploring genre preferences, we illuminate the dynamics of the entertainment industry through data-driven exploration.

Super Market Sales Analysis in Excel ([View repository](#))

Nov 2023

- It's aimed to help the store create an annual sales report, analysed customer behaviour and boost customer sales. I performed various tasks such as data understanding, data cleaning, processing, analysis, visualization and report creation.

CERTIFICATIONS

- Certified Data Analyst from Data Space Academy
